

PETROL INJECTOR *CLEANER*

Hi-Tec Petrol Injector Cleaner cleans fuel injectors, carburettors, ports, valves and combustion chambers by dissolving gums, waxes and carbonaceous deposits.

Hi-Tec Petrol Injector Cleaner helps restore the engine's original power and protects the engine against corrosion.

SPECIFICATIONS

Product Code	HI14-PIC-300
Characteristics	<ul style="list-style-type: none"> Premium fuel injector and carburettor system cleaner One bottle treats up to 80 litres
Product Sizes	300ml

DIESEL FUEL *CONDITIONER*

Hi-Tec Diesel Fuel Conditioner is a premium multifunctional diesel fuel cleaner and performance booster, formulated to clean and lubricate diesel fuel systems, including common rail and direct injection systems.

Hi-Tec Diesel Fuel Conditioner employs corrosion inhibitors and detergents to help repair existing and prevent future damage to injectors from corrosion, deposits and algal growth.

SPECIFICATIONS

Product Code	HI14-DFC-300
Characteristics	<ul style="list-style-type: none"> Premium multifunctional diesel fuel system cleaner One bottle treats up to 80 litres
Product Sizes	300ml

ENGINE *FLUSH*

Hi-Tec Engine Flush is designed to dissolve and remove the build up of sludge, dirt, varnish and other contaminants within the engine's lubrication system.

Hi-Tec Engine Flush will help to free sticky valves and hydraulic lifters, and clean clogged oil screens, thereby permitting the engine oil to circulate freely through all parts of the engine.

SPECIFICATIONS

Product Code	HI14-EF-300
Characteristics	<ul style="list-style-type: none"> Recommended for petrol and diesel engines One bottle treats up to 5 litres
Product Sizes	300ml

HI OCTANE *BOOST & CLEAN*

Hi-Tec Hi Octane Boost & Clean assists in boosting the octane rating of petrol and reduces engine knocking, thereby improving engine power.

Hi-Tec Hi Octane Octane Boost & Clean aids in cleaning fuel injectors and the combustion chamber, and restores engine efficiency.

SPECIFICATIONS

Product Code	HI14-OBC-300
Characteristics	<ul style="list-style-type: none"> Heavy duty octance and horse power booster One bottle treats up to 60 litres
Product Sizes	300ml

STOP SMOKE *TREATMENT*

Hi-Tec Stop Smoke Treatment is designed to reduce smoke emissions and oil consumption. It increases oil viscosity, promoting improved engine performance and noise reduction.

Hi-Tec Stop Smoke Treatment reduces wear and reconditions engine seals and gaskets to prolong engine life. It is suitable for petrol, LPG and diesel engines.

SPECIFICATIONS

Product Code	HI14-SS-300
Characteristics	<ul style="list-style-type: none"> Reduces exhaust smoke emissions and oil loss One bottle treats up to 6 litres
Product Sizes	300ml

RADIATOR *FLUSH*

Hi-Tec Radiator Flush is an environmentally safe and biodegradable cooling system rejuvenator that removes rust, scale, dirt and debris from radiators, water pumps, water jackets, engine blocks and, cylinder heads.

Hi-Tec Radiator Flush is a non acidic, non toxic cleaner safe for all systems and is safe on joints, rubbers, seals and gaskets. It is suitable for cars, trucks, tractors and wherever radiator flushing is required.

SPECIFICATIONS

Product Code	HI14-RF-300
Characteristics	<ul style="list-style-type: none"> Environmentally safe cooling system rejuvenator Treats one standard automotive radiator
Product Sizes	300ml

RADIATOR TREATMENT

Hi-Tec Radiator Treatment is a corrosion inhibitor designed to be used in the cooling systems of most types of water cooled internal combustion engines. It is specially formulated to inhibit the development of rust and scale and forms a protective film that lubricates water pump seals and prevents frictional wear.

Hi-Tec Radiator Treatment improves heat dissipation and helps to prevent coolant overheating and boiling. It mixes with all types of antifreeze and contains no acids, thus it is safe for all cooling system metal parts and hoses.

SPECIFICATIONS

Product Code	H114-RT-300
Characteristics	<ul style="list-style-type: none"> Radiator Treatment is safe to use with most coolants One bottle treats up to 15 litres
Product Sizes	300ml

ENGINE STOP LEAK

Hi-Tec Engine Stop Leak reduces unwanted oil leaks in petrol, diesel and LPG engines.

Hi-Tec Engine Stop Leak assists to rejuvenate hardened and shrunken seals.

SPECIFICATIONS

Product Code	H114-ESL-300
Characteristics	<ul style="list-style-type: none"> Suitable for petrol, LPG and diesel engines Reduces engine leaks and refreshes worn seals
Product Sizes	300ml

AUTO TRANS STOP LEAK

Hi-Tec Auto Trans Stop Leak contains additives which will effectively reduce leaks from hardened and shrunken rubber seals.

Hi-Tec Auto Trans Stop Leak also enhances the oxidation stability of oil, leading to a smoother operation of the transmission.

SPECIFICATIONS

Product Code	H114-ATSL-300
Characteristics	<ul style="list-style-type: none"> Effectively reduces leaks from faulty seals For improved transmission life and smoother operation
Product Sizes	300ml

POWER STEERING STOP LEAK

Hi-Tec Power Steering Stop Leak is designed to help prevent leaks in the power steering system by revitalising the rubber seals and O-rings. It quietens and smooths power steering operation and restores performance.

Hi-Tec Power Steering Stop Leak Treatment contains seal conditioners to lubricate and smooth hardened or shrunken seals to prevent further leaks and provides excellent anti-wear and anti-corrosion protection to the affected parts.

SPECIFICATIONS

Product Code	H114-PSSL-300
Characteristics	<ul style="list-style-type: none"> Effectively reduces leaks from the power steering system For smoother power steering operation
Product Sizes	300ml

RADIATOR STOP LEAK

Hi-Tec Radiator Stop Leak reduces leaks in radiator and heater cores, as well as weeping head gaskets.

Hi-Tec Radiator Stop Leak assists rejuvenates hardened or shrunken seals and is safe to use in all radiators. It is suitable for petrol, diesel and LPG engines.

SPECIFICATIONS

Product Code	H114-RSL-300
Characteristics	<ul style="list-style-type: none"> Reduces leaks in radiators and head gaskets Suitable for most radiator cooling systems
Product Sizes	300ml
