## PRODUCT DATA SHEET

### HIGH PERFORMANCE TWO STROKE OIL

#### PRODUCT DESCRIPTION

**Hi-Tec High Performance Two Stroke Oil** is designed to be used in high performance top tier two stroke motor cycle engines and power tools. It is formulated from a high quality mineral base stock with detergent additives to create a modern low ash lubricant.

**Hi-Tec High Performance Two Stroke Oil** has consistently given excellent engine cleanliness and freedom from ring sticking under controlled test conditions. Its performance reputation is based upon practical field experience involving the continual development and improvement of the lubricant additive system in high performance motorcycle racing engines.

**Hi-Tec High Performance Two Stroke Oil** is manufactured with self-mixing solvents and should be used at the fuel/oil ratio recommended by the engine manufacturer.

**Hi-Tec High Performance Two Stroke Oil** may also be used in small to medium sized water-cooled engines, which may not be sensitive to low ash levels. However it should not be used in water-cooled outboard engines.

**Hi-Tec High Performance Two Stroke Oil** meets the requirements of the JASO FA and FB, ISO-L-EGB and API TC specifications.
