

EVENT BULLETIN No. 1

Drift 4 Real – Saturday 18th July 2015

Permit Number **215/1807/01**

Amend the Supplementary Regulations:

1. Safety Equipment

Safety Cage

ROLL OVER PROTECTION

- All open cars (ie, cars without a supporting structure between the top of the A-pillars and rear window) must be fitted with roll over protection.
- Whilst not mandatory for closed cars, a roll over protection structure (ROPS) approved by CAMS is highly desirable. (Schedule J of the current CAMS manual)
- Roll over protection devices, constructed outside the parameters of those of the CAMS ROPS regulations may be incorporated in closed cars; however the Chief Steward must individually acknowledge the fitment and design as being appropriate for the activity.
- For roll over protection systems to be approved by CAMS see Schedule J (refer "General Requirements for Cars and Drivers").
- All cars for passenger rides must be fitted with a passenger seat, full cage and side intrusion bar.
