FOR IMMEDIATE RELEASE

HI-TEC OILS EXPANDS DIRECT OPERATIONS IN TASMANIA TO DELIVER STRONGER LOCAL SUPPORT

New Hobart State headquarters and local distribution network reinforce Hi-Tec's long-term commitment to Tasmanian industry.

Hi-Tec Oils has announced the establishment of a dedicated Tasmanian operation, including a State Head Office in Hobart, local warehousing and an integrated distribution network servicing customers across the state.

The investment marks an important milestone in Hi-Tec Oils' national growth strategy and strengthens its commitment to Tasmanian customers by delivering improved product availability, faster response times and direct access to local technical expertise.

Existing and new customers can continue to access the complete Hi-Tec Oils product range with confidence. The new Tasmanian operation has been established to ensure continuity of supply while enhancing service, technical support and product availability across the state.

The operation will support Tasmania's transport, agriculture, forestry, aquaculture, marine, construction, mining, manufacturing and automotive sectors with Hi-Tec Oils' complete range of premium lubricants, greases, coolants, AdBlue®, batteries, workshop equipment, vehicle care products and specialty maintenance chemicals.

Built for Tasmania's Growing Industries

Tasmania continues to attract investment across agriculture, aquaculture, renewable energy, infrastructure and advanced manufacturing, increasing demand for dependable supply partners with strong local capability.

By establishing local inventory and dedicated customer support, Hi-Tec Oils is improving supply chain resilience, reducing lead times and providing customers with faster access to premium Australian-made products and technical expertise.

Customers will benefit from:

- Local warehousing and improved product availability
- Faster deliveries and responsive customer support
- Direct access to Hi-Tec Oils technical specialists
- Stronger supply chain reliability
- Local account management backed by national manufacturing capability

A Proudly Australian Investment

As a 100% Australian-owned and Australian-made manufacturer, Hi-Tec Oils continues to invest in local manufacturing, regional employment and Australian industry.

Local stockholding within Tasmania will reduce interstate freight movements, improve supply efficiency and support more sustainable logistics while enabling customers to maximise equipment reliability and operational performance.

"Tasmania is an important market for Hi-Tec Oils, and this investment demonstrates our confidence in its future. By establishing a permanent local presence, we are strengthening our ability to deliver responsive service, technical expertise and reliable supply to customers across the state. Our objective is to become the trusted lubrication partner for Tasmanian industry." George Gambino, Chief Executive Officer.

"Our strategy is centred on customer intimacy—working closer with customers to understand their operations and deliver solutions that improve reliability, productivity and total cost of ownership. Combining Australian manufacturing with local inventory and dedicated technical support enables us to provide a level of service that sets Hi-Tec Oils apart while contributing to the long-term growth of Tasmania's industries and communities." Salman Rashid, Chief Commercial Officer

About Hi-Tec Oils

Hi-Tec Oils is one of Australia's leading independent manufacturers of premium lubricants and specialty automotive products. Proudly 100% Australian owned and Australian made, the company supplies lubricants, greases, coolants, AdBlue®, batteries, workshop equipment, vehicle care products and specialty maintenance chemicals for the automotive, commercial transport, agriculture, marine, mining, construction and industrial sectors, delivering high-performance solutions engineered for Australian conditions through a nationwide manufacturing and distribution network.
