PRODUCT DATA SHEET

RADIATOR TREATMENT

PRODUCT DESCRIPTION

Radiator Treatment is a heavy-duty, long life organic automotive/stationary engine cooling system corrosion inhibitor concentrate. It is suitable for petrol, diesel and gas fuelled engines where anti-freeze/anti-boil protection is not required.

Radiator Treatment provides long-life corrosion protection for aluminium and ferrous alloys and is fully compatible with the rubber hoses and plastics commonly used in engine cooling systems.

Radiator Treatment exceeds the requirements of Australian/New Zealand standard AS/NZ 2108 – 2004 (Type B).

Radiator Treatment does not contain ethylene glycol. It is not an anti-freeze/anti-boil type coolant and should not be used in conflict with engine manufacturers' recommendations. It will not reverse pre-existing corrosion problems.

Radiator Treatment is compatible with most anti-freeze and water-borne coolants. It is non-acidic, non-toxic and safe for most types of radiators. It is safe on joints, rubbers, seals and gaskets and is suitable for all cars, trucks, tractors and wherever radiator seal repair is required.

DIRECTIONS FOR USE

Under normal usage 300mL of **Radiator Treatment** treats up to 15 litres of cooling system. Larger radiators may require additional dosage. The efficiency of the product is also dependant on the condition of the radiator.

Available in: 300 mL

"Hi-Tec Oil Traders Pty Ltd (Hi-Tec Oils) has endeavoured to ensure that all information, representations and specifications contained in this product data sheet are accurate at the time of publication. This general information should be used in conjunction with appropriate inquiries by users of the product including consultation with the vehicle or equipment manufacturers published information.

It is the responsibility of users of the product to use the product safely. Users should consult the safety data sheets for each product at www.hi-tecoils.com.au. Hi-Tec Oils takes no responsibility for injury or damage if the product is used in an inappropriate or unsafe manner.
