

PRODUCT DATA SHEET

SHP 20W/50 SL/CF

PRODUCT DESCRIPTION

SHP 20W/50 SL/CF engine oil is the ultimate in protection and performance. This premium quality engine oil is a complex blend of base oils and chemical additives designed to protect the engine and enhance its performance under extreme operating conditions such as high temperature motorway driving or low temperature stop and go driving.

SHP 20W/50 SL/CF 50 contains detergents which neutralise the waste products from fuel combustion and prevent the formation of sludge and high temperature varnish deposits on critical engine components. Pistons stay clean and piston rings are prevented from gumming up. Anti-corrosion and anti-wear additives provide vital protection and minimise wear especially on cam shafts and valve gear.

SHP 20W/50 SL/CF exceeds the API SL/CF specifications and is suitable for high revving engines in high performance vehicles, four stroke motorcycles, LPG, super, unleaded, turbo-charged engines and light diesels (both naturally aspirated and turbo-charged).

SPECIFICATIONS

SHP 20W/50 SL/CF meets or exceeds the following demanding performance requirements:

API: SL, SJ, SH; CF, CD

Ford M2C.153E

Always consult your vehicles owner's manual for the manufacturer's recommendations.

TYPICAL PROPERTIES

Property	ASTM Method	Results
Appearance	Visual	Natural
Density (kg/Lt) @ 15°C	D-1298	0.894
Viscosity (cSt) @ 40°C	D-445	186
@ 100°C	D-445	19.0
Viscosity Index	D-2270	115
Pour Point (°C)	D-97	-23
Foaming Characteristics	-	-
All sequences after standing	D-892	Nil
